EDUCATION

St. Anselm's Sr. Sec. School

Higher Secondary Education (XII) - Science

Bhilwara, Rajasthan

2022 – 2023

Manikya Lal Verma Textile And Engineering College

Bachelor of Technology in Computer Science And Engineering

Bhilwara, Rajasthan

2023 – 2027

EXPERIENCE

Full Stack Generative AI Intern

San Francisco

May 2026 – Present

California, US, (Remote)

- Developed and enhanced full-stack web applications using React, JavaScript, Node.js, and REST APIs.
- Integrated Generative AI features using LLMs and prompt engineering techniques.
- Built AI-powered workflows to improve user productivity and automate repetitive tasks.

PROJECTS

Intelligent Resume Analyzer | *Python, NLP, Machine Learning, Jupyter*

- Architected an AI-powered hiring assistant capable of automating the resume screening process by intelligently extracting candidate data from unstructured documents.
- Implemented fuzzy-matching algorithms to evaluate parsed candidate profiles against complex job requirements with high accuracy.
- Engineered a data-driven recommendation engine that accelerates the hiring pipeline by ranking candidates based on matching scores

Complete Recommendation System | *Python, REST APIs, Data Science*

- Developed a fully-featured, scalable recommendation engine designed to deliver real-time personalized content suggestions.
- Designed and integrated a robust RESTful API architecture, enabling seamless, low-latency integration with frontend client applications.
- Processed and structured large datasets to train the recommendation models, ensuring high relevance and system accuracy.

Multi-Source Feedback Intelligence | *Python, NLP, AI Architecture*

- Built an intelligent data processing pipeline to aggregate and analyze qualitative feedback streams from multiple disparate sources**
- Leveraged advanced Natural Language Processing (NLP) techniques, including sentiment analysis and keyword extraction, to derive actionable insights from raw text.
- Designed the system architecture to be highly modular, allowing for future integrations of additional feedback channels and data streams.

TECHNICAL SKILLS

Languages: JavaScript, Python, C/C++, HTML5, CSS3, TypeScript

Frontend Development: React.js, Next.js, Tailwind CSS, Redux

Backend Development: Node.js, Express.js, REST APIs, GraphQL, WebSockets

Generative AI And Data Science: OpenAI API, LangChain, Hugging Face, Pandas, NLP

Databases And Storage: PostgreSQL, MongoDB, MySQL, Firebase, Supabase

Tools And Cloud: AWS, Docker, Git, GitHub, Linux, Postman
